

RUKHSAN SHAHID

Web Developer | React.js · Next.js · TypeScript

Pakistan | rukhshanshahid.work@gmail.com | +92 300 0941566 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

Web Developer with hands-on experience since 2024 building responsive, scalable web applications using React.js, Next.js, and TypeScript. Experienced integrating Supabase (Authentication, Database, Storage, Realtime) and REST APIs into production applications, building reusable UI components, and collaborating with cross-functional teams using Git/GitHub in Agile environments. Currently pursuing a BS in Artificial Intelligence, with applied project experience in AI-powered application development.

CORE SKILLS

- Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap, Framer Motion
- Backend & Tools: Node.js, Flask, Supabase (Authentication, Database, Storage, Realtime), Docker, Git, GitHub
- AI & Automation: Zapier, RAG (Retrieval-Augmented Generation)
- Familiar With: Django, SafePay Integration, OpenAI API, LLM Workflow

PROFESSIONAL EXPERIENCE

Web Developer Intern — V-Productions & Marketing

Jul 2026 – Sep 2026

- Developed and maintained the company's official website using Next.js and React.js, with a focus on performance, SEO, and user experience.
- Integrated Supabase Authentication, Database, and Storage into web applications; implemented real-time data synchronization using Supabase Realtime features.
- Collaborated with team members in an Agile development environment, using Git and GitHub for version control.
- Automated internal workflows and lead notifications using Zapier, and implemented a Retrieval-Augmented Generation (RAG) feature to power contextual, AI-generated responses on the website.

Web Developer Intern — GrowZap

May 2026 – Jun 2026

- Redesigned and rebuilt the company website into a professional portfolio site to showcase GrowZap's services and work.
- Focused on responsive layout and user experience to better present the company's projects to prospective clients.

Web Developer — DotTechHub

Jun 2024 – Jun 2025

- Developed and maintained responsive web applications using React.js and JavaScript, following modern frontend coding practices.
- Collaborated with team members to implement new features, debug issues, and improve application performance.
- Optimized UI responsiveness and refactored code structure to improve maintainability and overall user experience.

Web Developer Intern — DevelopersHub Corporation

Jul 2025 – Aug 2025

- Contributed to development of a functional e-commerce platform, building product listing, shopping cart, and checkout features with React.js.
- Improved frontend responsiveness and reusable UI components across devices.
- Assisted in debugging and testing to enhance website functionality within a collaborative development team.

PROJECTS

- Barberly — Appointment booking system for barber shops; built online scheduling and booking management with SafePay payment integration.
- V-Productions — Website for a digital business and training company; built with Next.js and React.js.
- Roznamcha — Daily accounting web application with real-time data updates.
- NewsMonkey — News aggregation web application with real-time content updates.
- AI Face Styler — AI-powered tool that applies artistic style transfer to facial images in real time; built with a Flask backend and containerized using Docker.

EDUCATION

Bachelor of Science in Artificial Intelligence

Aug 2023 – Jun 2027 (Expected)

The Islamia University of Bahawalpur
